NOTICE

A notice of intent for the following project submitted in accordance with §R307-401-1, Utah Administrative Code (UAC), has been received for consideration by the Executive Secretary, Utah Air Quality Board:

Company Name: St. George City

Location: St. George Industrial Park, Lots 12 A, 13A, 14A and 15A, St. George, UT

Project Description: Millcreek Power Generation Plant

St. George City submitted a Notice of Intent (NOI) to install and operate the Millcreek Power Generation Plant in Washington County, St. George, Utah. The power plant would consist of one simple cycle natural gas-fired turbine generator. The plant will be capable of producing 43 MW of electricity.

Pollutant	Limit	Averaging Time
NO _x	33.5 lb/hr	30-day rolling
CO	20.37 lb/hr	24-hour
Opacity	10%	

The changes in emissions will result in the following, in tons per year, potential to emit totals: PM₁₀ = 2.2, NO_x = 34, SO₂ = 1.2, CO = 20.6, VOC = 7, HAPs = 0.35 (formaldehyde 0.24).

The completed engineering evaluation and air quality impact analysis showed that the proposed project meets the requirements of federal air quality regulations and the State air quality rules. The Executive Secretary intends to issue an Approval Order pending a 30-day public comment period. The project proposal, estimate of the effect on local air quality and draft Approval Order are available for public inspection and comment at the Utah Division of Air Quality, 150 North 1950 West, Salt Lake City, UT 84114-4820. Written Comments received by the Division at this same address on or before March 7, 2005, will be considered in making the final decision on the approval/disapproval of the proposed approval order. Email comments will also be accepted at milkar@utah.gov. If anyone so requests to the Executive Secretary at the Division in writing within 15 days of publication of this notice, a hearing will be held in accordance with R307-401-4, UAC.

Date of Notice: February 5, 2005
